

Daniel Hyles
Senior Software Architect

Accurate
Estimates

A beautiful blend of infrastructure and development experience, from Exchange Server to ASP.NET to Windows Mobile.

Daniel Hyles is a Senior Software Architect at SSW, a Microsoft Certified Partner specializing in SQL Server .NET Solutions. Although specializing in Web E-commerce solutions, Daniel has extensive experience in Microsoft both pre and post .NET and loves working with C#, VB .NET, SQL Server and applications for PDA's/smartphones. He also helps many clients and SSW with network administration.
