Mark Liu
Senior Software Architect

[Consulting to developers is his specialty]

When the best developers can't find the answers... they ask Mark.

Mark Liu is an integral part of the SSW Team. His deep level of understanding of .NET Architectures gives him the ability to quickly understand new technologies and consult to other development companies when they need help. Mark has quickly become a leader in Windows Workflow and Windows Communication Foundation. The clients Mark has worked for while at SSW include PowerTel, Commonwealth Bank, Suntory and Forex Group.

Mark is bi-lingual, speaking C# and VB .NET
